

ST JOSEPH'S SCHOOL QUEENSTOWN

25 Beetham St
Queenstown

15th December 2016

To Whom it may concern,

I am writing in support of the Queenstown Youth Booth. The Youth Workers in this organisation support our School, St Joseph's Primary, in many many different ways. They work with our students each Tuesday in the playground, either encouraging them to be active or at times just being there for a student to talk to. Through this weekly interaction our students have learnt to trust and highly respect them.

We have been actively encouraged to seek their help for school events and this year they were able to support us for our Senior School Swimming Sports, Cross Country and Senior Athletics. They are always on time, organise and professional and extremely helpful. This organisation is a valuable asset in our community and wish to see their work grow and develop further so that all ages able to benefit from the experiences and care they provide.

Please do not hesitate to contact our school if you require any more information.

Kindest regards,

Moana Thorn
