To Whom It May Concern:

I am writing this letter to recognise the time and effort that the Wakatipu Youth Trust (WYT) put into various programmes around the Wakatipu to support students. I have had experience with the WYT as a parent and as an educator and I have found this organisation provides programmes that are professional, creative, fun and interactive.

Over the three years of dealing with the WYT, I have seen various programmes up and running that have been vital, for example, self defence, boxing, social programmes and a 'go to place' for youth who require help. This organisation has been well publicised so students know there is someone out there at a time of need.

In a school setting, I have been impressed at how the WYT workers have a strong emphasis on team-work and building relationships particularly with Years 7-8's. It is also wonderful that the students know that the WKT is there as they transition to High School and the staff visit primary schools and the high school frequently.

If you require any further information, please email me
